

Manatee Mantra #71:

E=MC Squared.

This famed formula, invented by a man named Einstein with energetic hair, here means that the **Energy** in a child's body equals the amount of **Mocha Chocolate** times the number of **Cookies** consumed.

The awesome force generated can create warm, fuzzy magic, or horrific destruction. So, we urge you to eat, drink, and be merry, but if energy levels approach critical mass, seek shelter immediately.

Peace.
